A&P™

A&P IS SUPERBLY SITUATED IN THE THIRD LARGEST NATURAL DEEP WATER HARBOUR IN THE WORLD

Falmouth has 3 large graving docks and extensive alongside deepwater berthing providing capacity for vessels up to 100,000 tonnes. Offering onsite engineering, electrical, paint and fabrication workshops and links to all other specialist contractors and OEMs, these are integrated to provide a complete range of marine repair services to the customer.

As well as extensive workshop facilities across all disciplines Falmouth offers bunkering facilities, the ability to dock without gas-freeing, in-water surveys and propeller polishing.

Falmouth is a busy working port handling over 100,000T of product annually and with over 30 firms located in the

docks providing a full range of services including towage, ship's agency, area port health, diving services, local surveyors and tank washing. Falmouth is used by 40,000+ cruise passengers annually who see Falmouth as the gateway to Cornwall. Falmouth has many long term shiprepair partners, including P&O, Grimaldi, Condor, Gardline, Euroships, Stena UK and the Ministry of Defence. These partnering agreements which have in some cases been in place for up-to 15 years, demonstrate A&P Falmouth's long term commitment to quality, reliability and efficiency.

PETER CHILD
A&P Group
Managing Director
Falmouth

On behalf of the whole team can I welcome you to A&P. We have a long and proud tradition in Shiprepair, operating the Docks since 1859 and we are proud to be serving our customers in the 21st century.

Over recent years we have made significant investment in the business to continually improve our service to you the customer. The principal asset of A&P are our people, a highly skilled and flexible team of 330 employees who understand the importance of quality and speed of turnaround, ensuring you the customer will want to come back. They are supported by an extensive local infrastructure of proven subcontractors and new European labour across all trades.
