PORT OF FALMOUTH

CORNWALL ENGLAND

CORK

SOUTHAMPTON

FALMOUTH

CHANNEL ISLANDS

Falmouth is the third largest natural deep water harbour in the world, guarded by the impressive Castles of Pendennis & St Mawes.

Strategically placed for a wide variety of cruises - Round Britain, Trans-Atlantic and European positioning, 3/4 day cruises from Southampton or Dover - the port would also be an asset to themed cruises.

The Port can accommodate ships alongside, or they can anchor in the sheltered waters of the Bay. A dedicated passenger landing facility is available. Ships berth only a 10 minute walk away from the town or passengers can opt to take a complimentary transfer coach.

The Port has a full range of marine services, including bunkering.

Falmouth is a member of the North European cruise marketing initiative Cruise Europe.

All cruise passengers will be welcomed to Falmouth by the Falmouth Cruise Ambassadors.
